Power (kW) to: 10  
Efficiency class:  
Efficiency: 76  
Made of:  
Color:  
Decoration:  
Fuel type:  
Chimney diameter, mm:  
Shape of glass:  
Heating (cooling) area (m2) to: 100  
Warranty, year: 5  
Purpose:

Description

The stove is manufactured from 100% cast iron.  
The clean glass system slows deposit buildup on the glass. An air supply above the glass creates a protective curtain. The preheated air is propelled along the glass. It triggers combustion of gas and volatile materials, thereby protecting the glass against smoke and soot deposits.  
Power modulation: 6,5 - 15kW, nominal power 10kW  
Heated surface 55 - 120 m².  
Maximum log length 42 cm.  
Chimney is connected at the top or back.  
The door on the side of the unit is used to feed the fire with logs more easily, without the risk of them falling on the embers or in the ashes.
